Analytics Insight is recognized as a leading media authority in artificial intelligence, big data analytics, robotics and disruptive technologies covering the latest trends in the industry. It monitors developments, recognition, and achievements made by companies operating at the convergence of these technologies across the globe.

Analytics Insight is also the world's First Print and Digital Publication focused on Artificial Intelligence, Big Data and Analytics and related technologies. The Analytics Insight platform uses extensive market research, historical data and algorithms to pinpoint emerging trends and future growth opportunities and help organizations determine where to compete. It helps decision-makers innovate technology processes with the ability to sense, react and adapt to changing market conditions and make smart business decisions to stay on the top of disruptive technologies.
Analytics Insight is recognized as a leading media authority for disruptive technologies providing content for high-tech markets.

Our close-meshed network reaches deep into the industry. Extensive industry and technology know-how forms the fundament for ground-breaking media brands with a variety of successful print and online channels.
The exceptional reach together with our wide-ranging advertising and content partnership gives technology suppliers access to a highly engaged solution provider community and the power to inform, promote and inspire business actions.

With a qualified audience of big data and analytics and movers and shakers in the industry, Analytics Insight is important to the most important people. Here are some statistics of both our website and the magazine.
Analytics Insight covers the leading-edge trends and technologies that today’s IT leaders and managers need to understand in-depth. It is known for its deep access, in-depth reporting, unique perspectives, and coverage of the latest technologies. Our core focus areas include:

**ARTIFICIAL INTELLIGENCE**
Every industry has a high demand for AI capabilities. As a result, the AI market is witnessing tremendous growth with revenues expected to reach US$60 billion by 2025.

**AUGMENTED AND VIRTUAL REALITY**
Augmented reality (AR) and Virtual Reality (VR) bridge the digital and physical worlds. AR dramatically expands the ways our devices can help with everyday activities while VR lets us experience what it’s like to go.

**AUTOMATION**
Enterprises are turning to automation to eliminate tedious tasks. By 2020, automation and AI will reduce employee requirements in business shared-service centers by 65 percent.

**BIG DATA**
With nearly 2.3 trillion gigabytes of data created every day and the data universe doubling every two years, there’s no denying that big data will continue to shape our world.

**BLOCKCHAIN**
Blockchain is observed amongst those technologies having the capability to re-invent the industry in the 21st century. Considered to be amongst the quintessential technology for digital transformation, it is highly lauded by Fintech leaders.

**BUSINESS ANALYTICS**
The business analytics market is growing rapidly because of the transformation from traditional techniques for analyzing data to advanced analytics techniques.

**BUSINESS INTELLIGENCE**
The modern BI platforms emerged in the last few years to meet new organizational requirements for accessibility, agility and deeper analytical insights.

**CLOUD COMPUTING**
With increasing cybersecurity attacks, it is becoming crucial for organizations to control, manage, and monitor access to their data and networks to mitigate that risk.

**KEY FOCUS AREA**

- **ARTIFICIAL INTELLIGENCE**
- **AUGMENTED AND VIRTUAL REALITY**
- **AUTOMATION**
- **BIG DATA**
- **BLOCKCHAIN**
- **BUSINESS ANALYTICS**
- **BUSINESS INTELLIGENCE**
- **CLOUD COMPUTING**
With increasing cybersecurity attacks, it is becoming crucial for organizations to control, manage, and monitor access to their data and networks to mitigate that risk.

These technologies provide the speed and performance of ready data access with the agility and efficiency of cloud and software-defined storage.

Dealing with unstructured and structured data, data science is an expanding field that encompasses anything related to data cleansing, preparation, and analysis.

We are seeing a real resurgence of entrepreneurial spirit, and more startup activity than ever before. And, the time has come to celebrate their grand success.

It is a rapidly evolving segment of the financial services sector where tech-focused startups and other market entrants are disrupting how the industry traditionally operates.

Intelligent automation is piloting its great deed ushering in the advanced plethora of productivity and innovation. Businesses with quality, efficiency, speed, and operational skills brought in by intelligent automation tend to succeed above those who haven’t adopted it yet.

The IoT market is expected to reach US$ 561 billion by 2022, driven by the total number of connected devices in the world growing at 20%-30% year over year.

Natural Language Processing (NLP) has empowered computers to manipulate human language to generate text, extract meaning, and make interactions easier through voice-enabled AI and conversational intelligence technologies.

Quantum computing is touted as the next major technological leap that will allow humanity to free itself from the innate limitations of silicone-based processing and unlock a bright new future of potentially unlimited computational power.

Robots are rapidly transforming the way we live and work. It will continue to accelerate innovation, thus disrupting and changing the paradigm of business operations in many industries.

Robotic Process Automation (RPA) is perpetually the eventual future of automation. RPA is an interesting issue among the C-suite, is quickly making strides over several businesses.

# Advertising Opportunities

## Web Ads

- **728px X 90px**
  - Leaderboard
  - $2500

- **468px X 60px**
  - Top Banner
  - $1500

- **300px X 250px**
  - Column Banner
  - Size One
  - $1000

  - Column Banner
  - Size Two
  - $1000

Web ads are sold and placed per channel. All advertisements will seamlessly display run-of-site and on every device and platform. The graphics show how each page-type accommodates each advertisement in the desktop view.

All prices are based on a one-month minimum contract and are net (no agency commission).

## Video

- **MPEG, MOV, AVI**
  - Recommended Formats
  - Upto 7 Mins

## E-Newsletter Sponsorship

- **$1500**

Put your message in front of 55,000 industry professionals in a monthly, targeted environment, alongside compelling editorial from the print and online editions.

All images must be formatted as a .jpg, .gif or animated .gif. Some popular email clients may not display animated .gifs. In that case, only the first frame of an animated .gif will display. Files should be smaller than $35$ kb but ideally should be about $10$ kb. .Jpgs should be set to “low” quality since they are viewed on screen.

» Promoted on Social Channels

What makes a quality sponsored articles and what can you achieve with it?
What makes a quality sponsored post and what can you achieve with it? A sponsored post can be used as an extended arm of content marketing and can contribute to the achievement of various goals. Lead generation, brand awareness, brand building - a sponsored post can provide valuable services for all these challenges. However, this requires that the article is read attentively and with pleasure.
Podcasts provide personal insights and comments from decision makers in their respective industries and topics. And, we make these contributions audible.

» Podcasts are consumed particularly attentively, go from the ear directly into the head and remain strongly in memory.
» Your contribution becomes valuable, divisible content - especially for social media & generates relevant attention through our marketing initiatives.
VIDEOS

Present your product highlight in a 60 to 90-second video interview

» Recording of the video interview in the live atmosphere at your location remotely.
» Editing & provision of the finished video interview including all rights of use.
» Optional: Local Language Voice Over

PROMOTIONS

» Social Media: Timely availability of the video interviews on Youtube.
» E-mail Newsletter: Special e-mail distribution to qualified readers
» Online: Placement of the video interview on analyticsinsight.net for 12 months.
